

# Need Somebody (feat. Leon Ware)

## Theophilus London

Close your eyes and let it go  
Drop and yank the tidal rope  
We've seen so many places, we've seen so many graces  
Hit you three times in a row, strike 'em out like a pro  
It's time to bring the action, it's time to bring the mack out  
These girls are social climbers, they'll climb and blow your back out  
[?]  
Make sweet lovin' on the floor  
Hit me 2 now hit the 4  
If you don't know, now you know Girl, you're gonna need somebody  
Who can show you the ways to go  
Show you all my love and my devotion  
Just give me your hand to hold  
Girl, you're gonna need somebody  
Who can show you the ways to go  
I wanna be your only lover  
Just give me your hand to hold I really need to change up (Oh my God what am I gonna wear?)  
But I can't make my mind up  
All they see is dollar signs, they view you like a trophy  
The buzz is runnin' out, they want to ball like Kobe  
Every day it comes and goes, got the shove, predict the pull  
Got the covers, got the heart, had the brains from the start Girl, you're gonna need somebody  
Who can show you the ways to go  
Show you all my love and my devotion  
Just give me your hand to hold  
Girl, you're gonna need somebody  
Who can show you the ways to go  
I wanna be your only lover  
Just give me your hand to hold Hold, hold my hand  
Hold, hold my hand  
Hold, hold my hand  
Hold, hold my hand  
Hold, hold my hand  
Hold, hold my hand  
Hold, hold my hand  
Hold, hold my hand Girl, you're gonna need somebody  
Who can show you the ways to go  
Show you all my love and my devotion  
Just give me your hand to hold

Girl, you're gonna need somebody  
Who can show you the ways to go  
I wanna be your only lover  
Just give me your hand to hold
