Bullet Proof Vest

[Colbie Caillat](#)

What are you trying to hide?
You won't let me inside
The fear's only in your mind
I can see it in your eyes
And I try to get through to you but I don't know what to do
You're making it hard to get to your heart
And it seems these days that everybody wears a bullet proof vest
If love is a blank dart shot from a heart-shaped gun
It only hurts you when you try to turn and run
When will you see that you don't need a bullet proof vest?
Please take it off for me
I won't shoot, I'll let you breathe
I wanna feel you feeling me
Oh, baby, love [unverified] don't bleed
And I try to get through to you, I don't know what to do
You're making it hard to get to your heart
And it seems these days that everybody wears a bullet proof vest
If love is a blank dart shot from a heart-shaped gun
It only hurts you when you try to turn and run
When will you see that you don't need a bullet proof vest?
If love is a blank dart shot from a heart-shaped gun
It only hurts you when you try to turn and run
When will you see that you don't need a bullet proof vest?
