Medusa

Magneta Lane

You're gonna try to listen on our conversation, yeah
To try to make her back down, make her back down
Dear, I thought I told ya she's gonna drag your ass to town
And back down, and back down, and back down, back downtown, back downtown
Dear, I thought I told ya that you'll fall flat, face on the groundShe's a go-go girl
She's a go-go girl
In her go-go worldShe's a go-go girl
She's a go-go girl
She's a go-go girl
In this go-go worldLa di da di da di daYou're gonna try to manipulate the situation, yeah
To try to make her back down, make her back down
Dear, I thought I told ya she's gonna drag your ass to town
And back down, and back down, and back down, back downtown, back downtown
Dear, I thought I told ya that you'll fall flat, face on the groundShe's a go-go girl
She's a go-go girl
In her go-go worldShe's a go-go girl
She's a go-go girl
She's a go-go girl
In this go-go worldHey!You listen here, this is how it goes,
My love
She's gonna make you crawl back
With a bloody noseThere goes my hero
And they say she spins around
And around, and around, and around, and around
There goes my hero
Fallin' flat, face on the groundBut when she looks at you
She's gonna make you pick and choose
She's gonna laugh
She's gonna smile
But she'll never be sorryAnd when the night
Turns into morning light
You're gonna run
You're gonna runHey!
Watch out!
