Birds

The Submarines

Sometimes I ask how could it be
Someone like you would want someone like me
And I'm here waiting on your love
I've been lying awake at night
Listening to the birds singing in the dark
And I'm still waiting on your loveWe could be holding on tighter
Had to learn to let go as we got higherOh no oh no don't go
I want to take you home tonight
Our love our love our love
Hey what if everything's all rightIf the morning comes at all
I'll dress you up like you're my paper doll
And take you everywhere I goWe won't be afraid to be happy
It's not so easy feeling everything
We were so ready for the fallIf we could only surrender let it in
We'd never have to ask what we were missingOh no oh no don't go
I want to take you home tonight
Our love our love our love
Hey what if everything's all rightWe could be holding on tighter
Had to learn to let go as we got higher
We could be holding on tighterOh no oh no don't go
I want to take you home tonight
Our love our love our love
Hey what if everything's all right.
