Turn Around

Monarch

I try to look through you,
And I try to look through you.
But I'm looking all around,
For too long.
And it gets you a secret,
From the first day we met.
I was looking around for too long.
Did you rescue my name then,
Or did you take the blame,
When I was looking all around?And so, turn around.
I'm coming down.
Turn around,
I'm coming down,
Coming down.And I know you look through me,
I know you look through me,
But I'm looking all around,
For too long.
And I'm standing in front of,
It's because of your love,
I've been looking all around,
For too long.
Just turn around this once,
I can't let it out now,
They're looking all around.And so, turn around.
I'm coming down.
Turn around,
I'm coming down,
Coming down.
No, turn around,
I'm coming down,
Coming down.
