

You Make Me Feel

DaG

Tried to make it alone
Didn't get me too much
You can cover your past
Not forgotten at last
Everything that you feel is mine
And the field still holds your sway
I see you in the pouring wine
When the darkness gets pulled away
You make me feel like I'm real
You make it summer all the time
You make me feel like I'm real
You make the raindrops shine like dimes
You make me feel like I'm real
You make it summer you make it good
Well it goes to show that you never know
I can take you to task
But you don't want me to ask
Time will stop like a click
But we're both gonna go
If in time you are flying high
Over fields where we would play
I'd be the colors in your kite
And the strings that hold you safe
And in time we are flying high
As we dance in the headlights laughing
Tears are all spilled behind us
And the bad days have blown away
