

Sweet Up and Down

Dave Matthews Band

We talk on the phone
There it is it's only your mind
But can it ?
Don't you hurt
It's all coming right here
The sweet up and down
Tickle in your throat
Things you know quite well
You're a joke
I know what's gone wrong
Needles in my legs keep me raw
The sweet up and down
I believe in love
But think nothing about it
When you're not around
I believe in love
Think it's just so fine
Sweet up and down
?
Got two words to make up the wall
God's the selling point
And the great inventor of course of
The sweet up and down
I believe in love
But believe that it's love
That keeps beating me down
I believe in love
I think it's just fine
The sweet up and down
Leaves me
I know my place
I made my money selling
God's the selling point
And the great inventor of course of
The sweet up and down
I believe in love
But think nothing about it
When it's not around
I believe in love

I think it's just fine
Oh the sweet up and down
I believe in love
And think nothing about it
When you're not around
I believe in love
I think it's just fine
Oh sweet up and down
