Negative Reaction

Devotchkas

you like to mock us but don't you know
you're just like the rest-you're society's clone
and just like a product on a shelf
you can be bought or you can be sold[Chorus:]
But your negative reaction
won't bring me down
No matter what you say or do
I'll keep standing my groundYou love to point fingers and yet just the same
whats unique about you when you're a pawn in a game
just like a window-front mannequin
your face has no identifiable name[Chorus]I don't agree with how you think-you tell me I'm not right
you judge the book by the cover without a peek inside
You've got an ignorant answer for everything I do
you've got a chip on your shoulder and a bad attitude[Chorus]
