

# Till Death

## Snow Tha Product

Fractured, slowly, closing on me  
The scars define the man  
My world completely broken  
Devastating  
Suffer now from your hand only  
Closed eyes and pray for life  
Choke down the words  
You're spitting  
Isolating now  
I separate myself  
From all the filth and dread  
I can't deny my faith no more  
Till death I separate myself  
From all the filth and dread  
I can't deny my faith here  
And you're no believer  
No one saw it coming  
Cutting pieces finding nothing

The threat of sacrifice  
My eyes completely open  
Underneath it  
Dead and empty barely human  
The words that saved my life  
No more war  
You will answer now  
I can't deny my faith no more  
Till death I separate myself  
From all the filth and dread  
I can't deny my faith here  
And you're no believer  
I separate myself  
And no one saw it  
Till death I separate myself  
From all the filth and dread  
I can't deny my faith here  
And you're no believer
