Paradize Bay

Europe

Lay your hand upon my shoulder say something
That I want to hear
Time will wash out every trace of sadness
If only you are near
I've tried so hard just to be somebody
But now I'm found
And we can be together
And travel far away
And we can love forever
In some old, yeah, Paradize Bay
Carry me, oh bring me out of fantasy
Tell me this is real
Tell me that you won't give up
And tell me, it's a good, good, good
Good thing to feel
I've tried so hard just to be somebody
But now I'm found
And we can be together
And travel far away
And we can love forever
In some old, yeah, Paradize Bay
Paradize Bay
The wind is carrying your voice
The message is, "Don't ever walk away"
The only answer I can give to you
Is that I'm always gonna stay
I've tried so hard just to be somebody
But now I'm found
And we can be together
And travel far away
And we can love forever
In some old, yeah, Paradize Bay
Yes, we can be together
And travel far away
And we can love forever
In some old, yeah, Paradize Bay
Paradize Bay
