Tellin' Me No

Guy

Yo, whassup? Miss me?
I miss you, tellin' me no
Yo, whassup? You want me?
I want you, tellin' me noRemember what you said? Talkin' on the phone
Sayin' little things, freaky little things, just to turn me on
Turn me on but when I try to come by
You have the tendency to wanna freak on meIf no means no, then I'll leave you alone
You keep tellin' me that you really wanna get it on
When things get hot, that's when you begin to tease
Can't take it no more, so I'm gonna leaveWhy you tellin' me no? Then you're leadin' me on
Pushin' me away when you know you want some
Make up your mind, really don't have the time
Been waitin' too long, so I gotta move onI don't think you understand, I'm fed up with your ways
Tired of the games, so find another man
'Cause I'm not the one, got better things to do
Like being 'bout somebody better than youDon't play dumb 'cause you know the real
Just when I'm about turnin' things out, now, you know what I feel
So you said you'll act right if I gave you half the chance
When that chance come around you try to play on my headWhy you tellin' me no? Then you're leadin' me on
Pushin' me away when you know you want some
Make up your mind 'cause I really don't have the time
Been waitin' too long, so I gotta move on and on and onWhy you wanna waste my time when the same thing's on your mind?
You know that I want you, you want me and that's not new
Save me the crazy games, it doesn't have to be this way
Either I'ma get it now or get it laterYou tellin' me no? Leadin' me on
Pushin' me away when you know you want some
Make up your mind, I really don't have the time
Been waitin' too long, on and on and onYou tellin' me no? Leadin' me on
Pushin' me away when you know you want some
Make up your mind, I really don't have the time
Been waitin' too long, I gotta move onTellin' me no? Leadin' me on
Pushin' me away when you know you want some
Make up your mind, I really don't have the time
I've been waitin', waitin', waitin', I gotta move on and onWhassup? You change your mind
You ready for some of my time, want me to lay it down the line
Beg for it, drop to your knees and take it
I know you want it, you done never came back for it
