

Put It Back Together

Fatboy Slim

I was moving forward
From the point I've come from
I was rolling lowly
This is our song now I was moving forward
From the point I've come from
I was rolling lowly
This is our song now Gotta see it, nothing means I gotta
Gotta feel it, everything is out
Gotta hold out, everything is out
Gotta day in out, just invite them Gotta bore them, till I take us out
Gotta feel that, every single line
Gotta clean it out to side
When we're out down and out Put it back together
Put it back together
Put it back together
Put it back together
Put it back together Yeah, yeah, yeah
Yeah, yeah, yeah
Yeah, yeah, yeah Burning down the city
Warning out of something
But I need to find it
'Cause I got no sun down Dug a whole was so fun
And a taste that's floating
What it doesn't meet no
Place to silent sleep now Gotta feeling, doesn't mean I sad
Because I love me everything around it isn't
Better if you sing it loud and I
Jam myself to dawn I got so much dissing at the side and
When it's just another ride and you
Sow yourself to the cat
Bet it [Incomprehensible] Put it back together
Put it back together
Put it back together
Put it back together
Put it back together Yeah, yeah, yeah
Yeah, yeah, yeah
Yeah, yeah, yeah
