The Good in Goodbye

Alexander Wren

Got a day for a cigarette that left in the pack
Two from a future and two from my pass
A cold cup of coffee
And a tear I'm trying to hold back

Got a table for two of this memories of mine
A girl from the pass with a pair of brown eyes
Darker skin and the hair is darkest as the night

Cant seem to leave her behind
And i cant get the girl of my mind
And it may be taken some time
someday ill find
Someday ill find
The good in goodbye

Got a slow dance to take with this half empty sheet
????
??
??

i cant seem to leave her behind
i cant get the girl of my mind
and it might be taken some time
someday i'll find
Someday i'll find
The good in goodbye

??
??
??
is goona some listen to some im sick of pain
come back again

cant seem to leave you behind
no, i cant get you of off my mind
and it make take a little time
someday ill find
someday ill find

can seem to leave you behind
no, i cant get you of off my mind
and mine be take some time
someday ill find
someday ill find
someday ill find
the good in goodbye
