And No One Can Deny

Satanic Surfers

the rivers state internal security task force is handling the security in the oil regions of nigeria with measures of brutality and guns financed with the money of western oil companies, who operate joint ventures with the nigerian government enriching a small minority, while the vast majority becomes increasingly impoverished and no one can deny that severe human rights violations have been committed in relation to the oil exploration detentions, executions, restrictions on the rights of freedom of expression (association and assembly) and no excuse can ever be enough for the genocide of the ogoni people how quickly truth can be silenced, news rearranged and adjusted when the price is right. and the price is always right when economical profit is valued higher than human life
