

# Nicotine

## Backdraft

I hate you sometimes  
But I love to be your queen  
    You are my muse  
    Got me smoking nicotine  
    I watch you sometimes  
        From oh so far away  
        But I can't forget you  
        Or anything you say  
    You sang that song in my ear  
    And it tickled those tiny hairs  
        Love is a puzzle  
        Some pieces they adjoin  
        It's not like that with us  
    But I keep flipping that coin  
    Yeah, I watch you sometimes  
        From oh so far away  
        But I can't forget you  
        Or anything you say  
    You sang that song in my ear  
    And it tickled those tiny hairs
