[Intro]
97 % of our DNA is unexplained by science, they call it junk
A caterpillar and a butterfly have got the same DNA, now tell me can you feel that funk

[Verse 1]
Just when he thought his life was over
Earthroamer, many legs, one head
Wrapped himself up, over and over
Determined to no longer walk with the dead
Was fairly certain, there was nothing left
Encased in curtain, took one deep breath
Happenin to me, prolly happenin to you
Iâ€™ma tell you a story, and I promise that its true

[Pre Hook]
Itâ€™s all in you
Now what you gon do
Hop in your cocoon
And speak through your moon
The lights coming soon
We all bout to bloom
There is space to make room
That a wish could come true

[Hook 2x]
Hey, Hey
Put your hands up
And let me hear you say
A caterpillar and a butterfly have the same
DNA

[Verse 2]
He felt like his species had ruined the earth
He was done crawling and he wanted rebirth
Saw her incase her self in a womb
Then is her asked is there any room
No, so he made his own bed to prepare to be dead
But little did he know, there was more ways that he could grow
And no it did not mean the end, there was much more he could defend
But not in this form, the demons were inside
Always fed through his greed and pride
He hoped he could destroy them just in time

[Pre Hook]
Itâ€™s all in you
Now what you gon do
Hop in your cocoon
And speak through your moon
The lights coming soon
We all bout to bloom
There is space to make room
That a wish could come true

[Hook 2x]
Hey, Hey
Put your hands up
And let me hear you say
A caterpillar and a butterfly have the same
DNA

[Verse 3]
Yes, finally time to transform
He knew in the babies that were born
A seed with a new way to live
There was more he had to give
I donâ€™t know about you
But I can relate, to his state
I have sewn up my case and I patiently wait
For my wings to erase, all the internal hate
So I can conquer the state
Full of those, who are exactly, the same
That I chose, other than name, other than a body
We are all a story, written kinda sloppy
Looking glass is broken
The matrix unplugged, prophecy has been spoken
Its undone, come up, from you dungeon

Look up at your sun
Weâ€™ve been waiting for a saviour
When in fact we are the ones

[Pre Hook]
Itâ€™s all in you
Now what you gon do
Hop in your cocoon
And speak through your moon
The lights coming soon
We all bout to bloom
There is space to make room
That a wish could come true

[Hook 2x]
Hey, Hey
Put your hands up
And let me hear you say
A caterpillar and a butterfly have the same
DNA

[Breakdown]
Hey, Hey,
Put your hands up (3x)
