

Precursor

Controller

So let the fire give way, to insanity
The unstoppable wake, inciting fear
Forget the powers that be, they won't stop me
My destination in sight, it all seems clear
This rage, inside me, builds like a maelstrom, spinning, violently,
ripping and tearing, nothing, no nothing, can stop this tragic ending.
Feel the wind against your face.....
There's no calm in this storm.....
I'm setting this rage free....
I'm setting this rage free....
You won't stop me, this rage inside me.....
End it violently
This rage in....side me....
This rage in....side me....
This rage in....side me....
The Battle drums begin to roar....
Saw the Pre-Cursor to this War....
Inspiring wrath was a mistake....
A savage bloody wake....
Freedom may not come free....
But my life belongs to me.....(3x)
I'm ready to start this war.
I'm ready to burn it down.
Pain is nothing to me.
Death should fear me.
Death should fear me
I'm calling the dogs of war.
Honor the soldiers who died before.
The bondage has caused this war.
The tyranny will reign no more.....
