Dream, Dream, Dream

Johnny Mathis

Just close your eyes, forget your sighs a little while
dream dream dream..
Each little tear will disappear into a smile
dream dream dream..Though your lucky day seems far away
and your plans go wrong
Build you castles high and by and by
love will come alongIt's wonderful, how wonderful the world will see
dream dream dream..(interlude)Though your lucky day seems far away
and your plans go wrong
Build you castles high and by and by
love will come alongIt's wonderful, how wonderful the world will see
dream dream dream..
