

Tall Grass

The Lacs

We were walking through the tall grass
Headin down to the swimming hole
And these beers aint gonna last
You know we?re always needing more
Just looking for a good time
Laid back and livin slow
Everybody?s feeling fine, watching that sun get low

I watched the sun fade out in that big red sky
I?m just a creek bank chillin it?s the time of my life
Navigatin through the tall grass swimming and fishin
With the cane poles bobbbers and a bucket of crickets
Laid up on that gator slide sippin that wine
And catchin all the white perches hittin the line
I got to get a mess for later on in the night
Cuz fish and grits is the shit when its cooked just right
I got Mr. Smith?s daughter hangin onto my arm
We just some country boys and girls getting down on the farm
And the bright summer sun couldn?t get much hotter
So the shirts come off and we jump in the water
I love going to a place that everybody goes
And livin in a town that everybody knows
Bless take it slow and just see where it goes
I love livin my life where the tall grass grows

We were walking through the tall grass
Headin down to the swimming hole
And these beers aint gonna last
You know we?re always needing more
Just looking for a good time
Laid back and livin slow
Everybody?s feeling fine, watching that sun get low
Ole bright suns shinning on some tanned up legs
Ole grilled up sausage on a piece of white bread
It don?t get much better for some folks like us
And there aint no rebel gonna stop by buck
And them youngins on a 4 wheeler stirrin up dust
Billy hidin in his truck tryin roll one up
Just a few good things in my life that I love

Just a few good things that's in my blood
If I ever die young don't cry for me
Cuz if my spirit lives on you know where I'll be
There aint many boys out there that aint been found
Rip everything but pines up outta the ground
While me and my friends take time real slow
Drop it down to 4 low and let it sooth my soul
Everyday get stuck in a big mud hole
Just sit right there and watch the sun get low

Through the tall grass
Headin down to the swimming hole
And these beers aint gonna last
You know we're always needing more
Just looking for a good time
Laid back and livin slow
Everybody's feeling fine
Watching that sun get low
Oooh
Watching that sun get low
Livin slow, Laid back and livin slow
Watching that sun get low
Watching that sun get low
You know I'm feelin fine, feelin fine
Tall grass
