

# Already Gone

Taylor Henderson

I can't find you  
A million miles  
And a world away  
World away

City lights  
Through the night  
Make the stars  
Seem out of place

Chasing the hours but losing the days  
Some things never change

'Cause I'm already gone  
And when I'm home  
I know it's not for very long  
'Cause I'm already gone  
But on the road  
I know just where my heart  
Where my heart belongs  
Where it belongs  
Map out a path  
And tie it with string  
When I'm too far from home  
Hold on and pull me in

I can't find you  
A million smiles  
But it's not your face  
Not your face

City lights  
Blur the lines  
Steal the breath  
That I need to take

Chasing the hours but losing the days  
Some things never change

'Cause I'm already gone

And when I'm home  
I know it's not for very long  
Cause I'm already gone  
But on the road  
I know just where my heart  
Where my heart belongs  
Where it belongs  
Map out a path  
And tie it with string  
When I'm too far from home  
Hold on and pull me in
