Burning Heads

We won't tell you what to do,
We'll just leave you no choice
We'll take good care of you
The sly way to subdue.
So get a job and earn some money,
Join the ranks and fall in line,
It's a race now can't you see
The only way to remain freeSo don't take trouble asking why,
Cause you'll get no reply,
About the bombs that we've built
And what we've done to our seasThe secret games we have to play,
Decisions we had to make,
Long before you noticed,
We're only for your sakeSo don't take trouble asking why,
Cause you'll get no reply,
About the bombs that we've built
And what we've done to our seasWho ever told you
You could raise your voice
Can't you see we're busy
Here making things worse
I guess you thought that
You would have the choiceSo don't take trouble asking why,
Cause you'll get no reply,
About the bombs that we've built
And what we've done to our seasAnd all the countries on this planet
Are waiting to catch
You out
Someone has to take action
So don't be so surprised
