

No Way

Fifth Harmony

[Fifth Harmony]

I know you don't want me anymore by the look on your face
(They say when it rains it pours, you can tell by my face) Oh and I know, and you know that we've been here
before

I think I know how it should end
We got an audience calling us crazy
We ignore those with opinions of hate
We're not like the rest of them

Friends with insanity as of lately Everyone comes with scars but you can love them away

I told you that I wasn't perfect, you told me the same

I think that's why we belong together and unashamed

I told you that I wasn't perfect, no way

(Way, way, no way, no way) When I look in your eyes I see through to my soul

I know the core of you is good, you're my tarnished hero Oh and I know, and you know how our story is told

Only we know what it is

We got an audience calling us crazy

We ignore those with opinions of hate

We're not like the rest of them, friends with insanity as of lately... Everyone comes with scars but you can love
them away

I told you that I wasn't perfect, you told me the same

I think that's why we belong together and unashamed

I told you that I wasn't perfect, no way (Way, way, no way, no way, no way...)
