

# Tar

## Mokave

Remember health warning  
It's printed on the packet  
Middle tar, low tar, high tar  
Something that make you die Taking one out of the packet  
It's just a force of habit  
You know you cannot stop it  
The why was the reason why Nerves, nerves  
Tension, tension  
Addiction, addiction, addiction, addiction  
Low tar, high tar Nicotine stain on your finger  
Try to wash off but it still lingers  
Cigarette holder just a joke  
Don't really take bad away from smoke Nerves, nerves  
Tension, tension  
Addiction, addiction, addiction, addiction  
Low tar, high tar Remember health warning  
It's printed on the packet  
Middle tar, low tar, high tar  
Something that make you die Nerves, nerves  
Tension, tension  
Addiction, addiction, addiction, addiction  
Low tar, high tar Remember, remember, remember  
Tar, tar
