High Life

London Grammar

Give up the high life
that's okay
Take it or leave it
For me
Follow you, I might
The darkest way
Only to leave it
Once again
And I
I know
I,I know
Give up your high life
If that's okay
Take it or leave it
For me
Give up your high life
If that's okay
Take it or leave it
For mePut out the bright light
To drive away
All that is honest
And all that is brave
And follow you, I might
My darkest day
Only to leave it
Once again
And I
I know
And I
I know
Give up your high life
If that's okay
Take it or leave it
For me
Give up your high life
If that's okay
Take it or leave it
For meWe are, yeah we are, we own everything
We are, yeah we are, we owe nothing

We are, yeah we are, we own everything
We are, yeah we are, we owe nothing
We are, yeah we are, we own everything
We are, yeah we are, we owe nothing
We are, yeah we are, we own everything
We are, yeah we are, we owe nothingGive up your high life (We are, yeah we are, we own everything)
If that's okay (We are, yeah we are, we owe nothing)
Take it or leave it (We are, yeah we are, we owe nothing)
For me (We are, yeah we are, we owe nothing)
Give up your high life (We are, yeah we are, we owe nothing)
If that's okay (We are, yeah we are, we owe nothing)
Take it or leave it (We are, yeah we are, we owe nothing)
For me (We are, yeah we are, we owe nothing)
