

# Do You Call My Name (Live Acoustic)

Ra

Some people seem to think  
They always know what's best for you  
Their little minds try to  
Create a world to keep you stillThe bolt is thrown, the cage is locked  
You saw this, don't you lie  
At first you cry and then you hate  
Those people stole your willDo as you are told  
And maybe then we'll let you out  
You might be dead and cold  
You might be full of doubtDon't try to escape  
'Cause you don't have nowhere to go  
If nothing is your fate  
There's no scenario  
No nothingDo you call my name?  
Do you stain my brain?  
My eyes are blurry  
And I can't see you anymoreDo you call my name?  
Do you breed my pain?  
My heart is bloody  
And I can't take it anymoreSo you just sit there stuck  
Afraid to risk reality  
Afraid to cause yourself more pain  
To face insanityBut nothing ventured, nothing gained  
You see, your fear's your cage  
You beg for help but you're alone  
Stuck in a helpless rageDo as you are told  
And maybe then we'll let you out  
You might be dead and cold  
You might be full of doubtDon't try to escape  
'Cause you don't have nowhere to go  
If nothing is your fate  
There's no scenario(It's me)(I see)(Please)(Let me out I'm petrified)Do as you are told  
And maybe then we'll let you out  
You might be dead and cold  
You might be full of doubtDon't try to escape  
'Cause you don't have nowhere to go  
If nothing is your fate  
There's no scenario  
C'monDo you call my name?

Do you stain my brain?  
My eyes are blurry  
And I can't see you anymoreDo you call my name?  
Do you breath my pain?  
My heart is bloody  
And I can't take it anymoreDo you call my name?  
Do you stain my brain?  
My eyes are blurry  
And I can't see you anymoreDo you call my name?  
Do you breath my pain?  
My heart is bloody  
And I can't take it anymore
