

# Beneath A Burning Sky

## Mendeed

Holocaust, in flames of fear burns fantasy  
Liberty is just another masqueraded lie  
Break the world, set it all ablaze  
With an iron fist you lead the way  
Conquering the lives of those  
Who are on their knees  
You preach your words of wisdom  
Heartfelt, a peaceful Saviour  
You've sentenced us to death  
Beneath a burning sky  
Burning sky  
As you dictate  
Your words encroached into our minds  
A thousand virtues betrayed  
Guilty of waiting we bond together  
Born to suffer, only those ill fated eyes  
Liberate our minds  
Behold the sign, you are killing us  
Behold the sign  
In a world of hate with bodies soaked in blood  
We are a living tragedy  
Within this madness we must unite  
Sever the chains of deceit  
And rise against the new world's impunity  
Holocaust, in flames of fear  
Liberty's a lie  
Conquering the lives of those  
Who are on their knees  
You preach your words of wisdom  
Heartfelt, a peaceful Saviour  
You've sentenced us to death  
Beneath a burning sky, beneath a burning sky  
Burning sky
