

# You're my Angel

## Breeze and Styles

You're my angel and you're my star  
You're my light that is shinning in the night  
I wanna touch you but you're so far  
Just come along and I'll give you all my heart  
You're my angel and you're my star  
You're my light that is shinning in the night  
I wanna touch you but you're so far  
Just come along and I'll give you all my heart  
You're my angel and you're my star  
You're my light that is shinning in the night  
I wanna touch you but you're so far  
Just come along and I'll give you all my heart  
So untouchable  
Incredible that I would make you mine  
So impossible  
Seems to be that I knew one day you'd be mine  
You're my angel and you're my star  
You're my light that is shinning in the night  
I wanna touch you but you're so far  
Just come along and I'll give you all my heart  
You're my angel and you're my star  
You're my light that is shinning in the night  
I wanna touch you but you're so far  
Just come along and I'll give you all my heart  
You're my angel and you're my star  
You're my light that is shinning in the night  
I wanna touch you but you're so far  
Just come along and I'll give you all my heart  
You're my angel and you're my star  
You're my light that is shinning in the night  
I wanna touch you but you're so far  
Just come along and I'll give you all my heart  
So untouchable  
Incredible that I will make you mine  
So impossible  
Seems to be that I knew one day you'd be mine  
You're my angel and you're my star  
You're my light that is shinning in the night  
I wanna touch you but you're so far  
Just come along and I'll give you my heart  
You're my angel and you're my star  
You're my light that is shinning in the night

I wanna touch you but you're so far  
Just come along and I'll give you all my heart  
So untouchable  
Incredible that I will make you mine  
So impossible  
Seems to be that I know you're mine
