

# Can You Roll Her

## UFO

Fast as light our jets were burnin'  
On the road, a distant siren's song  
Hands upon my engine's growin'  
Vincent's deep throat breathin' out so strong I can hold her, can you roll her? Riding like there's no tomorrow  
The siren's song sure is growin' stronger  
Shadow reached a high note  
And in the distance, electric lights no longer I can hold her, can you roll her?  
I can hold her, can you roll her?  
I can hold her, can you roll her? Fast as light our jets were burnin'  
On the road, a distant siren's song  
Hands upon my engine's growin'  
Vincent's deep throat breathin' out so strong I can hold her, can you roll her?  
I can hold her, can you roll her?  
I can hold her, can you roll her? I can hold her, can you roll her?  
I can hold her, can you roll her?  
I can hold her, can you roll her?
