

# Shine On

Peter Frampton

Find it hard to see you in the dark  
I looked around you were beside me  
Don't you realize  
It's hard to dream  
Without your helping hand to guide me This could be the one, girl  
If you will be my sun Shine on  
Me, shine on me  
Let it shine on  
Shine on  
All I have to do is let it shine on Please look about and tell me what you see  
All noise and dirt and plastic people  
Love is clean  
And ours has been a bluer shade of jade  
Than black or white is Take me on a ride, girl  
Right there by my side, oh Shine on  
Me, shine on you  
Let it shine on  
Shine on  
All I have to do is let it shine on Shine on  
Me, shine on you  
Let it shine on  
Shine on  
All I have to do is let it shine on, oh baby Shine on  
Me, shine on you  
Let it shine on  
Shine on  
All I have to do is let it shine on
