Cyan

Kaedyn Kashmir

Cyann, Cyann
Iâ€™ll be there to hold your hand
Try my best to erase your pain
Cause seeing you happy is worth it anyway

Weâ€™re filled with empty security
Making our way with false purity
I have always done what was told
But Iâ€™ve never been that bold
To find the light of day that lights my way

Cyann, Cyann
Iâ€™ll be there to hold your hand
Try my best to erase your pain
Cause seeing you happy is worth it anyway

If we were forced into a cage
Of abandonment and rage
I swear weâ€™ll make it out okay
And you will find your own way

When the cage opens
And shows that everything is broken
Weâ€™ll pick up the pieces and build a new castle
One that wonâ€™t crumble when we fall

Cyann, Cyann
Iâ€™ll be there to hold your hand
Try my best to erase your pain
Cause seeing you happy is worth it anyway
