

# Ladies of Cambridge

## Vampire Weekend

Chestnut park on a Saturday night  
Mystical boys feelin alright  
Raggedy wisdom falls from my hand  
As the ladies of Cambridge know who I am I've had dreams of Boston all of my life  
Chinatown between the sound of the night  
But if you leave I just don't think I could take it  
Take it  
Take it  
Take it Graveyard freaks we're fallin' in style  
Lady's the pharaoh, Charles is the Nile  
That's a museum, classical grace  
Stones of your father stand there today I've had dreams of Boston all of my life  
Chinatown between the sound of the night  
But if you leave I just don't think I could take it  
Take it  
Take it  
Take it I've had dreams of Boston all of my life  
Chinatown between the sound of the night Cos when you left my room  
To go to the kitchen  
I imagined that you were dead  
A morbid streak runs through  
The whole of my family  
But for you I could put it to rest But if you leave I just don't think I could take it  
Take it  
Take it  
Take
