

# Miss Your Kiss

Tamar

Can't wait to see you boy  
'Cause you know it's been a while  
Since we've had the chance  
To do what we do  
I'm ready to give you what 'chu like  
Lying under the moonlight  
How soon can you get here?  
'Cause I'm ready to play, ooh yeah  
I'll light fifty candles  
Around my bedroom  
A romantic interlude's in store  
Just walk through the door and  
Don't rush take you're time, we've got a night  
So many things we're gonna do  
I'm ready too, I'm ready, I miss your kiss  
Make love to me tonight, I won't be shy  
So many things I wanna do  
I'm ready too, I'm ready, I miss your kiss  
[Unverified]Anticipation's killing me  
Everything is ready  
Just need you here, oh  
Can't wait till our lips meet  
[Unverified]I'll do anything, anything you please  
Tonight  
I'll light fifty candles  
Around my bedroom  
A romantic interlude's in store  
Just walk through the door and  
Don't rush take you're time, we've got a night  
So many things we're gonna do  
I'm ready too, I'm ready, I miss your kiss  
Make love to me tonight, I won't be shy  
So many things I wanna do  
I'm ready too, I'm ready, I miss your kiss  
Don't rush take you're time, we've got a night  
So many things we're gonna do  
I'm ready too, I'm ready, I miss your kiss  
Make love to me tonight, I won't be shy  
So many things I wanna do

I'm ready too, I'm ready, I miss your kiss  
I'll light fifty candles  
Around my bedroom  
A romantic interlude's in store  
Just walk through the door and  
Don't rush take you're time, we've got a night  
So many things we're gonna do  
I'm ready too, I'm ready, I miss your kiss  
Make love to me tonight, I won't be shy  
So many things I wanna do  
I'm ready too, I'm ready, I miss your kiss  
Don't rush take you're time, we've got a night  
So many things we're gonna do  
I'm ready too, I'm ready, I miss your kiss  
Make love to me tonight, I won't be shy  
So many things I wanna do  
I'm ready too, I'm ready, I miss your kiss  
Don't rush take you're time, we've got a night  
So many things we're gonna do  
I'm ready too, I'm ready, I miss your kiss  
Make love to me tonight, I won't be shy  
So many things I wanna do  
I'm ready too, I'm ready, I miss your kiss
