Lethal Habits

Destroy

Shoot some cocaine to pacify your brain
it's brought to you courtesy of the CIA
In Vietnam men didn't die in vain
The U.S. shipped back heroin in their body bags
My neighborhood's a shooting gallery
Because of crack dealing scum
Another kid blown away
Thirteen years young
What's your pleasure, what drugs did you do today?
Because of your habit, who died along the way?
Drug dealers, death dealers, life stealers, junkie breeders
