The Christmas Gift I Want

Jon Secada

It's the thought that matters most of all
So this year please give me something simple and small
Wrap the lace and bows around your heart
'Cause you're the only Christmas gift I wantYou and me
That's my dream
'Cause you don't mean something to me
You mean it allJust one wish is on my list
That you'll be my love
'Cause you're the only Christmas gift I wantYou and me
That's my dream
'Cause you don't mean something to me
You mean it all
