

Take Me Away

Clooney

You take me away
You take me away
And you blow my mind
More than little bit
So damn fine
love every minute
so take me away
yeah take me away
show me something
make it good
I gotta one way trip
Boy starting with you

So lets go
Come on
Take me away
Lets go
Come on
Iâ€™ll do what you say
Lets Go
Come on
I donâ€™t know your name
Letâ€™s go yeah
I want you anyway.
Yeah yeah yeah yeah

Iâ€™m out walking mindin my business
When a guy struts by
what who the hell is this?
Some a tall cool breeze
Greek isle Adonis and I
turn my feet
I gotta get on this
Stop right there
Cos Iâ€™m hitching a ride
I got a fill OF this town
And Iâ€™m ready to fly
you look like a boy
Who could show me the sights

You got a first class ticket
And a look in your eye

So
You're a dream
You're a scene
A for real roman holiday
Jimmy dean
Steve mcqueen
A Fast getaway
Cherry bomb
Fire cracker spark
gonna turn down the lights
you can glow in the dark
the way you walk
You fill those jeans
When you flex your pecs
Your stretchin the seams

Come and take me home
And show me the sights
Paris, or the Taj Mahal
Alright
