

# Bumpy Ride

## Red Wanting Blue

All the roads we will take  
They end in the same place  
But we will make our own bumps  
Along the way Must have been sick  
The day they gave away  
All of the answers  
'Cause all I've got is excuses  
How are we to feel?  
Can't really say...  
Caught between  
Obligations and choices Oh, hey...what's going down?  
We can't live forever  
But we still try anyhow  
Map of America  
Wrapped around my heart  
To me, her tangles highways  
Look like Heaven  
I can't believe  
We're barely even here  
Don't want to waste  
Another second Oh, hey...what's going down?  
Who's to say that we  
Can't live forever, anyhow? Somebody's gonna take credit  
For starting this  
And I'm sure I'll shake hands  
With someone at the end  
But for right here  
Now...in the middle  
This time is ours  
To have for ourselves  
All the roads we will take  
They end in the same place  
But we will make our own bumps  
Along the way We get to decide  
How bumpy we ride  
Life's a bumpy ride
