

If I Had My Way

Vince Gill

Oh if I had my way, we'd love one another
And if I had my way, we'd all live as brothers
There'd be no more fussing and fighting
No more hungry innocent dying
I'd make it all go away if I had my way
Oh if I had my way I'd carry your burden
And if I had my way no one would be hurtin'
And there'd be no more hatred and lying
No more lonely little kids crying
I'd make it all go away if I had my way
Maybe one day the walls will come down
If I had my way, the lost would be found
Love will find a way to turn everything around
There'd be no more fussing and fighting
No more frightened little kids crying
I'd make it all go away if I had my way
Oh yes I would make
