Good Day

Sean McGee

I had a good day today
I've been up, I've been down
I've been swallowed up, spat out and kicked around
There were days when the phone never rang at all
Well you win some and you lose some but this world waits for no one
I'm so glad I didn't turn back, get my life back on track
[Refrain:]Today was a good day nothing was there to stand in my way, clear blue skies as far as I can see
It was you (hey), it was me (hey), it was everything I wanted to be
I had a good day today (today)
I've been down on my luck, everyone around me made me wanna give up
There were times when I couldn't do nothing right

Well you win some and you lose some but this world waits for no one
I'm so glad I didn't turn back, get my life back on track
[Refrain:]It's nice to forget about all the troubles past, I'm glad they didn't last
I can finally breath again and say "today is a good day"
Yeah today was a pretty good day, it was good
Today was a good day nothing was there to stand in my way, clear blue skies as far as I can see
It was you (hey), it was me (hey), it was everything I wanted to be
I had a good day today
Today was a good day nothing was there to stand in my way, clear blue skies as far as I can see
It was you (hey), it was me (hey), it was everything I wanted to be
I had a good day today!
