

# Disco

## Metro Station

I wonder if you're going down  
Well, we all know you get lost  
And then get found  
And then I wonder so I can't believe that's what you said  
I wonder in my sleep  
I can't believe that's what you heard  
Can you not feel? I can't take this  
No, I don't like it  
I don't know where you are You know she's dancing at the disco  
And whoa, she's dying on the dance floor I know you're sleeping all alone  
You feel suicidal  
Now you're dying to get out  
But [Incomprehensible] deep inside Do you feel it in your veins  
The poison rushing through?  
But can't you see it in your heart  
I'm still there for you I can't take this  
No, I don't like it  
I don't know where you are You know she's dancing at the disco  
And whoa, she's dying on the dance floor (Say my name)  
You don't even know it  
(Well, I am done)  
Well, you sure aren't showing it (Now hold my hand)  
You know she's on the dance floor  
(Well, I know she's got it)  
But still she craves more You know she's dancing at the disco  
And whoa, she's dying on the dance floor  
Yeah, yeah, she's dancing at the disco  
Whoa, she's dying on the dance floor
