

Ambitionary

The Word Alive

How much longer must I see demise?
Or can you see my past?
Oh
I wish I could have lived, without regrets
But I made, my mistakes so many times
Where do you go when the darkness finds you?
All I want is to see better days
And have my past washed away
All I want is better days
But where do I go? But where do I go?
I need a place to call my own
Where can we find hope? Where can we find hope?
I need you to show me the road
Why should it be this long?
Another reminder, of how much you've build
Remind yourself you've come this far, you've gone so far
Remind yourself you've come this far, you've gone so far
But where do I go? But where do I go?
I need a place to call my own
Where can we find hope? Where can we find hope?
I need you to show me the road
But where do I go? But where do I go?
I need a place to call my own
Where can we find hope? Where can we find hope?
I need you to show me the road
Why wasted this for me?
Show me where to go
Show me anything, give me everything
Show me where to go
Show me anything, give me everything
You keep pulling anymore, but you can see, destroyer of all
Where do I go? Where do I go?
But where do I go? But where do I go?
I need a place to call my own
Where can we find hope? Where can we find hope?
I need you to show me the road
But where do I go? But where do I go?
I need a place to call my own
Where can we find hope? Where can we find hope?

I need you to show me the road
I need you to show me the road
