

# Girl from the North Country

**Bob Dylan**

If you're travelin' in the north country fair  
Where the winds hit heavy on the borderline  
    Remember me to one who lives there  
She once was a true love of mineIf you go when the snowflakes storm  
    When the rivers freeze and summer ends  
    Please see if she's wearing a coat so warm  
To keep her from the howlin' windsPlease see for me if her hair hangs long  
    If it rolls and flows all down her breast  
    Please see for me if her hair hangs long  
For that's the way I remember her bestI'm a-wonderin' if she remembers me at all  
    Many times I've often prayed  
    In the darkness of my night  
    In the brightness of my day
