

Je Ne Sais Pas Pourquoi

French Affair

Je ne sais pas pourquoi
Why do you break my heart in two?
There's no reason for what you do
But I'm still in love with you Je ne sais pas pourquoi
I'm thinking of you everyday
Oh baby, please don't go away
I love you more than words can say
I love you more than words can say Another lonely night
Without you by my side
Hope you might change your mind Another lonely night
It's hurting deep inside
It's killing me that's true
But I won't let you go Je ne sais pas pourquoi
Why do you break my heart in two?
There's no reason for what you do
But I'm still in love with you Je ne sais pas pourquoi
I'm thinking of you everyday
Oh baby, please don't go away
I love you more than words can say
I love you more than words can say Another lonely night
Without you by my side
It's killing me that's true
But I won't let you go Je ne sais pas pourquoi
Why do you break my heart in two?
(Break my heart in two)
There's no reason for what you do
(Reason for what you do)
But I'm still in love with you Je ne sais pas pourquoi
I'm thinking of you everyday
(Of you everyday)
Oh baby, please don't go away
(Baby, please don't go away)
I love you more than words can say
I love you more than words can say Je ne sais pas pourquoi
I love you more than words can say
I love you more than words can say
