

Pretty Girl

Sugarcult

Pretty girl is suffering,
while he confesses everything
Pretty soon she'll figure out
what his intentions were about
And that's what you get for falling again
you can never get him outta your head
And that's what you get for falling again
you can never get him outta your head

chorus:

Its the way that he makes you feel
its the way that he kisses you
its the way that he makes you fall in love
She's beautiful as usual
with bruises on her ego and
her killer instinct tells her to
be aware of evil men
And that's what you get for falling again

you can never get him outta your head
And that's what you get for falling again
you can never get him outta your head

Chorus

Pretty girl

Pretty girl

Pretty girl is suffering
while he confesses everthing
pretty soon she'll figure out
you can never get him outta your head
its the way that he makes you cry
its the way that he's in your mind
its the way that he makes you fall in love
Its the way that he makes you feel
its the way that he kisses you
its the way that he makes you fall in love, love
