

Under the Lighthouse

Big Wreck

Down here under the lighthouse
Upstairs, I see for miles
Keep my name under the white out
Just let me miss you all the while
Now, I sit here with your letter
It's pushin hard on my brain
You think they should shrink it
(Babe) baby, I think that's insane
No, you woulda left me anyway
And I just bow my head
I swear you mighta left me anyway
So I'll leave you instead
When I told you that I'm sorry
Ya told me that I'm full of fear
When the music is just too loud
Well, it's not your voice I hear
Well, you woulda left me anyway
So I just bow my head
I swear you mighta left me anyway
So I'll leave you instead
