

You'll Still Love Me

David Yazbek

Here's my prediction -
What I'm gonna do to you
I'm going to break your heart
but you'll still love me
You'll be a fiction
Like a shell when I get through
Here's the amazing part -
You'll still love me

I'm like a shiny little snail
I'll leave a slimy little trail
You will still love me

It's like a circle
Like a ring or like a world
I'll find another girl
and you'll still love my avocation
You'll still love me

I'll lock myself inside a box
full of bras and bobby-sox
I won't come out and you can't make me
change my position
I never wonder why
I'm never gonna die
and you'll still love me
you will

We came home and had a ball
Corpses after Carnival
Long black dress
False alarm
Cheap watch ticking on my arm
How long are we together?
How long was your hair last year?

Here's your condition -
Jammed up with junk and lies
But I've got the Irish eyes
and you'll still love my irrigation

I sow and then I flirt
Fill it up with sweetheart dirt
You'll still love me

I'm like an owl in the dark
pulling broads out of the bark
and I see better in the night time

It's like a circle -
Like a ring or like a world
I'll find another girl
and you'll still love me
