

# I'd Like To Take You Out Tonight

Clifford T. Ward

My only wish is that you dry those tears  
Dry those tears  
I'd like to take you out tonight  
Come on now try a little smile  
a while, please respond  
I'd like to take you out tonight. You might have good reason to cry  
Try and let me help you through. I know you loved him very much  
It's such a difficult re-adjustment to make  
But then I've always loved you too, it's true  
And now you know, can we make it, do I show? You might have good reason to cry  
Try and let me help you through. My only wish is that you'll dry those tears  
Dry those tears  
I'd like to take you out tonight I'd like to take you out tonight  
I'd like to take you out tonight  
I'd like to take you out tonight.
