Where You're Concerned

Perry Como

Can't sleep at night without dreams of you
And now you fill my daydreams tooWhere you're concerned
When did this feeling start to grow in me?
Where you're concerned
Why did it take so long for me to see?
I can't pretend I'm just a friend
Where you're concernedIf love is just a game, then I can't play
Where you're concerned
I never thought I'd feel this way, but now
I want to live, just to give
Where you're concernedCan't sleep at night without dreams of you
And now you fill my daydreams too
