

# Where You're Concerned

Perry Como

Can't sleep at night without dreams of you  
And now you fill my daydreams too  
Where you're concerned  
When did this feeling start to grow in me?  
Where you're concerned  
Why did it take so long for me to see?  
I can't pretend I'm just a friend  
Where you're concerned  
If love is just a game, then I can't play  
Where you're concerned  
I never thought I'd feel this way, but now  
I want to live, just to give  
Where you're concerned  
Can't sleep at night without dreams of you  
And now you fill my daydreams too
