

# Cadillac Song

## Ariana Grande

[Hook]

Riding 'round in my Cadillac  
Thinking 'bout the day that I first saw you  
Nothing compares to what we had, baby that won't change  
I want you babe, I still want you baby, I still want you, you[Verse 1]

Summer days with my honey  
Worrying about nothing  
Back in the day when things were easier than a breeze  
Who knew that kiss was the last one  
I never thought we would change  
Baby, I'm missing you[Pre-Hook]

We should have been forever but we fell apart  
Might have separated but you took my heart  
Always knew I wasn't really over us  
Sometimes I catch myself[Hook]  
Riding 'round in my Cadillac  
Thinking 'bout the day that I first saw you  
Nothing compares to what we had, baby that won't change  
I want you babe, I still want you baby, I still want you, you[Verse 2]  
Memories last forever, so how could I just forget  
Made everything from nothing cause time was always spent[Pre-Hook]  
We should have been forever but we fell apart  
Might have separated but you took my heart  
Always knew I wasn't really over us  
Sometimes I catch myself[Hook]  
Riding 'round in my Cadillac

Thinking 'bout the day that I first saw you  
Nothing compares to what we had, baby that won't change  
I want you babe, I still want you baby, I still want you, you
