

Love Comes

Lewis Furey

Love comes like a miracle...

Love comes to the rescue - whenever you need it

Love comes like a miracle so you better believe
It's true (it's true) - when I look deep inside of you

Just when I think I cannot find

Some peace of mind...

Love comes to the rescue - whenever you need it

Love comes like a miracle so you better believe
It's true (true) - when I'm lost for words to explain

And my heart is filled with the kind of pain

I just don't need

Oh...

Love comes to the rescue (to the rescue) - whenever you need it

Love (don't you know, don't you know that) comes like a miracle (like a miracle)...

[Instrumental break]Just when I think I can't find some peace of mind...

Love - love comes...

Love comes...

Let it in...
